THIS IS YOUR BRAND!

Dean Guitars mission has always been to produce the finest guitars in the world. We want to help musicians be as passionate about making music as we are about creating instruments that are played on the most prestigious stages, and in the best studios, around the world. Own a Piece of History!

Dean Guitars, in collaboration with the Dimebag Darrell Estate, is proud to introduce the Dean Dimebag Darrell Signature ROOTS ML.

This very special guitar, limited to only 200 individually numbered pieces, features an oak razor blade inlaid directly into the body of the guitar. The 200 razor blades were cut from a branch of an old oak tree, located right outside the studio window in Dime's backyard where Pantera recorded most of their now legendary albums. There is no doubt that Dimebag Darrell's own Dean MLs and monstrous guitar sound shook the branches of this very oak tree.

This is a historical, guitar industry first. The wood used in the making of this guitar was taken directly from the artists backyard with the blessing and endorsement of his loved ones! The 200 guitarists lucky enough to get their hands on this instant collector's piece will forever have a piece of heavy metal and guitar building history, literally in the palm of their hands. This wood belonged to Dimebag Darrell and now it can belong to you – The Dean Dime Roots ML.
